

DEAR PARTICIPANTS OF THE RENEWABLE ENERGY SUMMIT 2019

It is an absolute highlight in my career and personal life to welcome you, and treat you, to a wonderfully sustainable experience, the RES 2019.

After more than a year of preparation, we are going to be dedicating just over three days to finding answers to questions.

And there is one question in particular that we are asking:

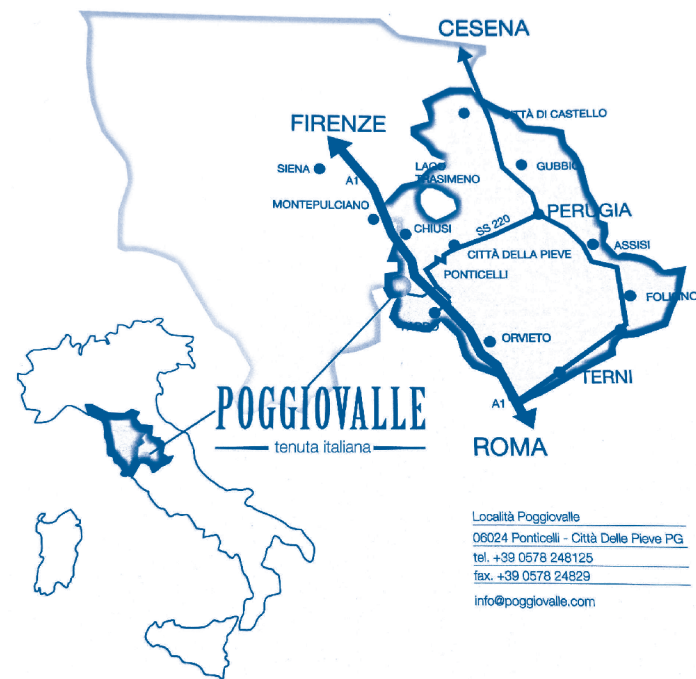

where should we start when it comes to sustainable investment? I am convinced that if we can get decision makers together and come up with a story and a plan, we will have a chance of accelerating the sustainability of our world.

This is also the moral basis for this Summit.

I wish you all an instructive and, above all, enjoyable experience that you will be able to look back on with pleasure!

Gerard Scheper

Owner of European Solar & organizer of the RES2019
